### Numerous language pairs and fields of expertise, as well as active support of our team

Berlineo stands for comprehensive approach to our clients' needs. Advantages of our offer:

- express cost estimate
- professional advice
- comprehensive conference services
- translation memory management

# Online translation platform available **NON-STOP.**

The [be-lingo.com](http://be-lingo.com) ordering platform was designed so that all our clients can **calculate translation costs themselves** and place orders also outside normal business hours as well as on nonworking days. Now also on weekends or public holidays, at any time of day or night, you can obtain an estimate and order your translation. **No more unnecessary formalities**, no more waiting for an offer.

## Easy-to-use translation platform

[www.be-lingo.com](http://www.be-lingo.com) is a professional tool which reduces the time needed to place an order to a minimum. In just a couple of minutes you will find out what the cost of your translation is and when it will be ready. If you accept the cost, you can place your order instantly. Then, you can follow the progress of work and, once the projects are completed, access all your source files and translations.

Stop wasting your precious time on traditional offers. Use our **cutting edge tool** and make use of our specialist services.

You will see for yourself that [www.be-lingo.com](http://www.be-lingo.com) is a user-friendly solution made for clients like you.

**ORDER USING BE-LINGO.COM**

# Specialist translation services.

## Comprehensive translation services

Thanks to years of experience and **highly qualified translators** we are ready for any undertaking. We can handle complex projects involving translation of specialist materials amounting to millions of source words.

Our **professionalism** and **dedication** have gained recognition among hundreds of European companies and renowned international corporations from various industries. We translate for companies from such sectors as: automotive industry, medicine, pharmaceuticals, construction industry, clothing industry, FMCG.

Now you can become one of our **satisfied clients** too.

**TRANSLATION SERVICES**

## Localisation of websites, software and video games

**Localisation services** in our offer are aimed at developers of games and software, as well as international companies offering their products and services around the globe.

Localisation is a complex process of **adapting the source content**. Texts are prepared in such a way as to be perceived by the target audience as if they were originally written in the target language.

Thanks to professionally localised texts, products and services offered worldwide have a **greater chance** of winning customers' trust, which may have a decisive influence on their success on a particular target market.

**LOCALISATION SERVICES**

# Expert tools supporting translation processes.

## Translation memory and multilingual term bases

At Berlineo translation memory always works to **our clients' advantage**. Each translation ordered is added to the data base containing all translation jobs done for a particular client.

Text fragments that reappear in various materials or projects automatically become hints for the purposes of current translation tasks. This, in turn, allows to significantly **reduce completion time** and **lower the costs**.

## Coherence = savings + highest quality standards.

Thanks to optimum use of tools supporting translation processes and glossaries we can offer our clients **professional translations** at constant and reasonable prices. Translation memory and individual term bases allow us to guarantee highest quality standards.

Glossaries prepared in consultation with the clients support translation processes in all projects we are entrusted with.

Our software makes it also possible to import **term bases** and **translation memories** from other CAT tools. Now you don't have to be tied to one translation agency.

### Key advantages for our clients

- ✓ terminological coherence
- ✓ shorter completion times
- ✓ reduced translation costs
- ✓ import of existing term bases and memories

# We apply a comprehensive approach to all of our clients' needs.

## Interpreting at conferences, training sessions or on the shop floor

Our verified interpreters perform well in all circumstances. Therefore we can provide **interpreting services** during official speeches, at international conferences, as well as training sessions with foreign instructors.

Apart from standard **interpreting**, our offer includes escort interpreting and long-term translation services during trainings, installation and start-up of machinery or at construction sites.

### INTERPRETING SERVICES

## Conference services from A to Z

We co-operate with experienced conference interpreters throughout the country and we are able to provide **simultaneous interpreting services** regardless of where the event is taking place.

We are always thoroughly prepared to each interpreting job and always rise to the challenge.

Our agency is also ready to provide comprehensive **conference management services** to our clients: the venue, accommodation, catering services, technical support, conference interpreting, as well as a master of ceremonies.
